

## Printing a Mounting Template

### NOTICE

It is not recommended that you print a mounting template on your own. Use the template that came in the product box.

If you do print the template, you must follow these instructions for printing a mounting template precisely. To print large templates, you need large enough paper and printer. Failure to have the correct sized paper and printer, or a failure to follow these instructions, may result in an incorrectly sized template and therefore an incorrect cutout (too large or too small) on the mounting surface of your boat.

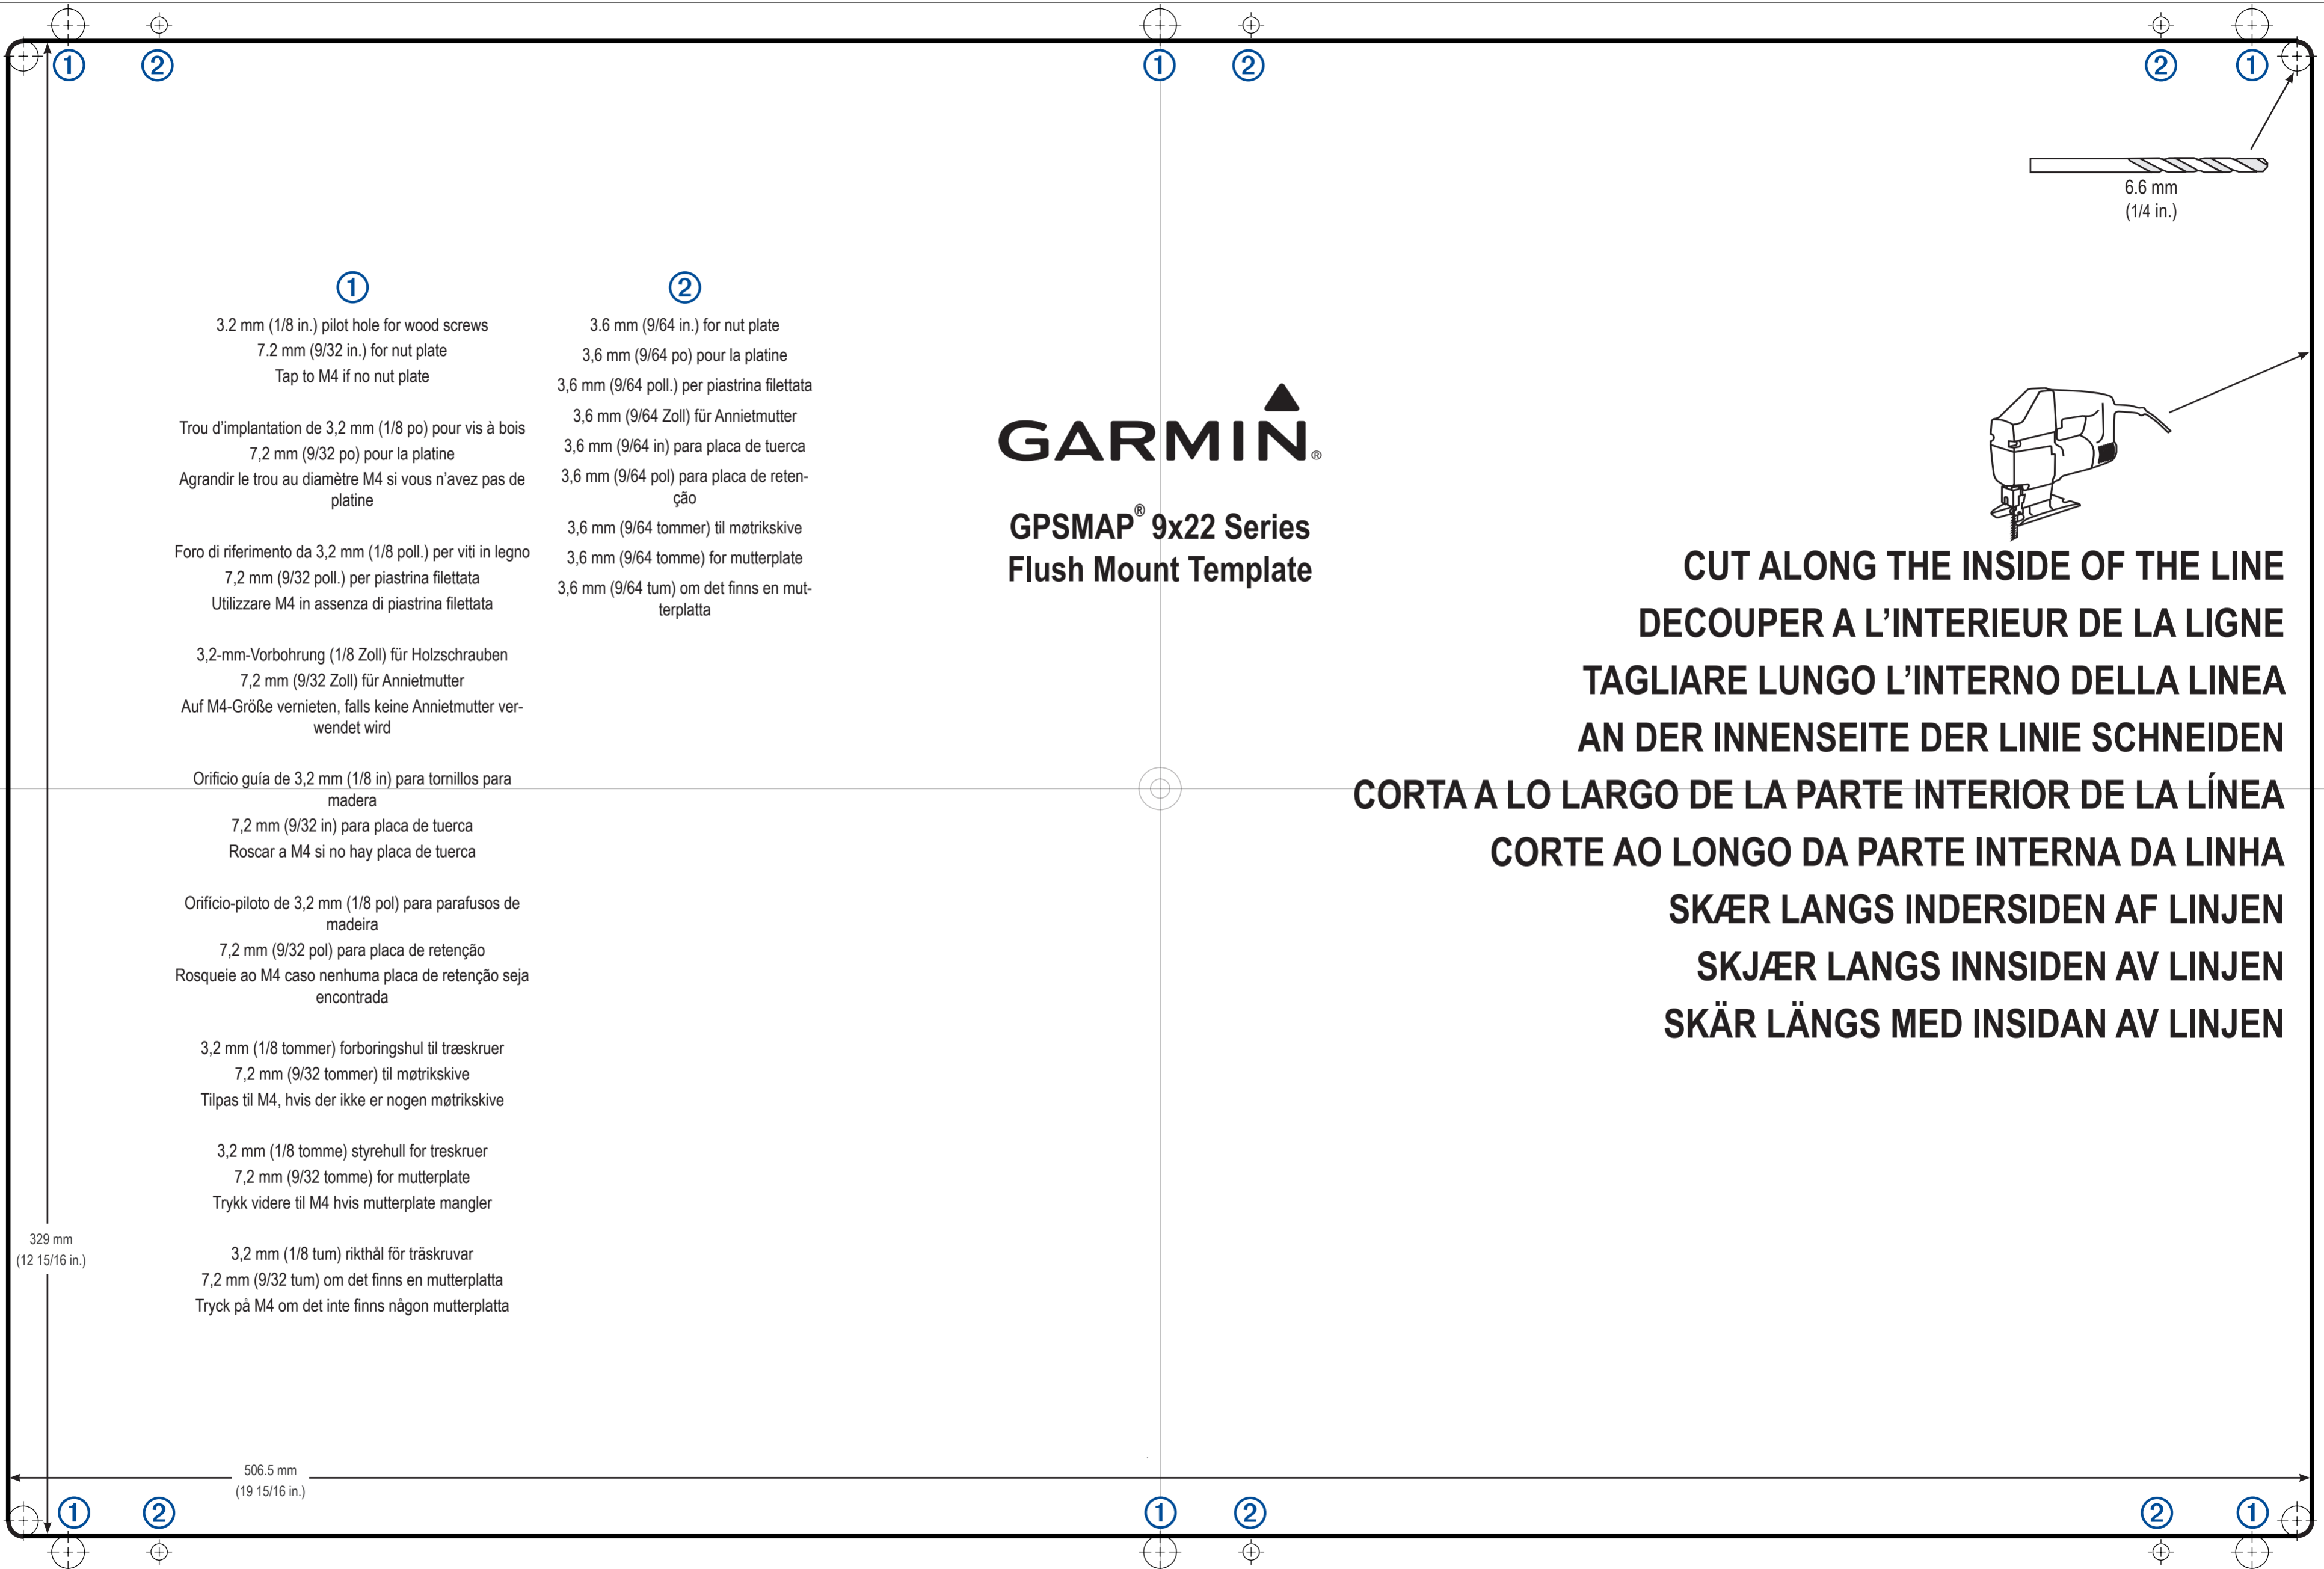

**NOTE:** The options and locations of the options differ between Adobe Acrobat versions and other PDF viewing/printing applications. Be sure the scaling is 100% before printing.

- 1 Select **File > Print**.
- 2 Enter **2** in **Pages to Print** ①.
- 3 Select **Actual Size** ② for **Page Sizing & Handling**.
- 4 Verify that the paper size is larger than the template ③.  
In this example, the paper is not larger than the template.
- 5 If the paper size is not large enough, select **Properties** ④ and select a **Paper Size** that is larger than the template.
- 6 After printing the template, use a ruler to measure at least one dimension line to ensure the template printed to 100% scale.

### NOTICE

Garmin is not responsible for any damages or expenses resulting from a miscut mounting surface arising from a failure to follow these instructions.

①

3.2 mm (1/8 in.) pilot hole for wood screws  
7.2 mm (9/32 in.) for nut plate  
Tap to M4 if no nut plate

Trou d'implantation de 3,2 mm (1/8 po) pour vis à bois  
7,2 mm (9/32 po) pour la platine  
Agrandir le trou au diamètre M4 si vous n'avez pas de platine

Foro di riferimento da 3,2 mm (1/8 poll.) per viti in legno  
7,2 mm (9/32 poll.) per piastrina filettata  
Utilizzare M4 in assenza di piastrina filettata

3,2-mm-Vorbohrung (1/8 Zoll) für Holzschrauben  
7,2 mm (9/32 Zoll) für Anniemutter  
Auf M4-Größe vernieten, falls keine Anniemutter verwendet wird

Orificio guia de 3,2 mm (1/8 in) para tornillos para madera  
7,2 mm (9/32 in) para placa de tuerca  
Roscar a M4 si no hay placa de tuerca

Orifício-piloto de 3,2 mm (1/8 pol) para parafusos de madeira  
7,2 mm (9/32 pol) para placa de retenção  
Rosqueie ao M4 caso nenhuma placa de retenção seja encontrada

3,2 mm (1/8 tommer) forboringshul til træskruer  
7,2 mm (9/32 tommer) til møtrikskive  
Tilpas til M4, hvis der ikke er nogen møtrikskive

3,2 mm (1/8 tomme) styrehull for treskruer  
7,2 mm (9/32 tomme) for mutterplate  
Trykk videre til M4 hvis mutterplate mangler

3,2 mm (1/8 tum) rikthål för träskruvar  
7,2 mm (9/32 tum) om det finns en mutterplatta  
Tryck på M4 om det inte finns någon mutterplatta

②

3.6 mm (9/64 in.) for nut plate  
3,6 mm (9/64 po) pour la platine  
3,6 mm (9/64 poll.) per piastrina filettata  
3,6 mm (9/64 Zoll) für Anniemutter  
3,6 mm (9/64 in) para placa de tuerca  
3,6 mm (9/64 pol) para placa de retenção  
3,6 mm (9/64 tommer) til møtrikskive  
3,6 mm (9/64 tomme) for mutterplate  
3,6 mm (9/64 tum) om det finns en mutterplatta
