

CHIRP Sonar + StructureScan® HD for LOWRANCE® HDS®

SonarHub™ Sounder Module is the all-in-one solution that provides both fish- and structure-finding technologies PLUS the new Lowrance SpotlightScan™ Sonar view for HDS Gen2 models.

SonarHub™ Sounder Module FEATURES

- CHIRP sonar with the optional **Lowrance HDI** transducer delivers extremely efficient pulse generation that provides improved target resolution and noise rejection, plus **DownScan Imaging™** to provide crystal-clear, picture-like views of what's beneath a boat.
- With the optional LSS-2 transducer, **StructureScan® HD** offers best-in-class, side-scanning range and resolution.
- Compatible with **ALL-NEW SpotlightScan™** forward- and surround-scanning sonar transducers.*
- Plug-and-play compatibility with **Lowrance HDS Gen1** (not including SpotlightScan™), **HDS Gen2** and **Gen2 Touch** fishfinder/chartplotter models.
- Three built-in Ethernet ports allow for quick and convenient networking without the need for an extra Ethernet networking module
- Supported by Lowrance Advantage Service program

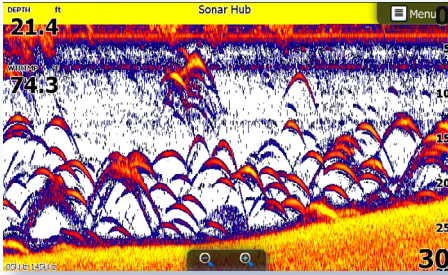

*SonarHub Sounder Module not required for SpotlightScan™ functionality with HDS Gen2 Touch displays.
